

# Inspect Iteration Plan

## 1. Key milestones

[Key dates showing timelines, such as start and end date; intermediate milestones; synchronization points with other teams; demos; and so on for the iteration.]

Milestone	Date
Iteration start	18 Mar 19
Vision Statement	
Initial use case model	
Critical core use case	
Identify Candidate architecture/ technology platforms	
Development Environment	
Iteration stop	31 Mar 19

## 2. High-level objectives

1. Vision Statement
2. Initial use case model
3. Critical core use case
4. Identify Candidate architecture/ technology platforms
5. Development Environment

### 3. Evaluation criteria

1. Vision statement completed as agreed with team.
2. Initial use case model completed as agreed with team.
3. Critical core use case completed as agreed with team.
4. Candidate architecture identified as agreed with team.
5. Individual development environment set up as determined by candidate architecture.

### 4. Work Item assignments

The following Work Items will be addressed in this iteration:

Work Item ID	Name or keywords of description	Outcome	State	Assigned to (Name)	Estimated Hours	Hours Worked	Estimate of hours remaining
1.0	Vision Statement	completed as agreed with team	Incomplete	Michael			
1.1							
2.0	Initial use case model	completed as agreed with team	Incomplete	Conrad			
2.1							
3.0	Critical core use case	completed as agreed with team	Incomplete	Jazzie			
3.1							
4.0	Identify Candidate architecture/ technology platforms	completed as agreed with team	Incomplete	Elias			
4.1							
5.0	Development Environment	Individual development environment set up.	Incomplete	All			
5.1							

## 5. Issues

Issue	Status	Notes

## 6. Assessment

Assessment target	Complete all Objectives by end of iteration
Assessment date	31 Mar 19
Participants	All
Project status	Green

- **Assessment against objectives**

[Document whether you addressed the objectives as specified in the Iteration Plan.]

- **Work Items: Planned compared to actually completed**

[Summarize whether all Work Items planned to be addressed in the iteration were addressed, and which Work Items were postponed or added.]

- **Assessment against Evaluation Criteria Test results**

[Document whether you met the evaluation criteria as specified in the Iteration Plan. This could include information such as “Demo for Department X was well-received, with some concerns raised around usability,” or “495 test cases were automated with a 98% pass rate. 9 test cases were deferred because the corresponding Work Items were postponed.”]

The most important guideline here is that although satisfactorily completed items may summarily mentioned, incomplete items require a more comprehensive explanation ]

- **Other concerns and deviations**

[List other areas that have been evaluated, such as financials, or schedule deviation, as well as Stakeholder feedback not captured elsewhere.]
